

ROHITH R

Frontend Web Developer | React.js & Next.js | AWS Cloud & Generative AI

Coimbatore, TN • +91 9047918276 • rohithweb23@gmail.com

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Web Developer and final-year Computer Science & Engineering student (Expected 2027) with hands-on experience building responsive, high-performance Single Page Applications using React.js, Next.js, and TypeScript. Skilled in frontend optimization, component-based architecture, RESTful API integration, and CI/CD deployment via Vercel. Backed by cloud and Generative AI certifications from AWS, Microsoft, and Google Cloud. Recognized top performer and team leader seeking a Junior Frontend Developer / Web Developer role.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3

Backend: Python, Java, SQL

Tools: Git, GitHub, Vercel, Vite, VS Code

Cloud & AI: AWS Cloud Fundamentals, Amazon Q Developer/Business, Generative AI, NLP, Computer Vision, Agentic AI, AI API Integration

PROFESSIONAL EXPERIENCE

Web Development Intern — Initz Institution, Coimbatore, India [Add start date] – [Add end date] 2026

- Developed and maintained interactive web applications using HTML5, CSS3, JavaScript, and Java within an Agile team environment.
- Optimized frontend code, CSS structures, and media assets, reducing page load times by 30% and improving Core Web Vitals scores.
- Executed cross-browser testing across Chrome, Firefox, Safari, and Edge to resolve layout and functional compatibility issues.
- Streamlined billing workflow systems during internal tool optimization, boosting operational efficiency by 20%.
- Collaborated with senior engineers via Git/GitHub using structured feature branching and pull request code reviews.

TECHNICAL PROJECTS

Personal Portfolio Website

Next.js, TypeScript, CSS, Vercel

[Live Demo](#) | [GitHub](#)

- Built a fully responsive SPA using Next.js and TypeScript with component-based architecture, achieving zero Cumulative Layout Shift (CLS).
- Reduced initial page load time from ~4s to under 1.5s through lazy loading, web font optimization, and Vercel edge CDN deployment.

College Placement Management System

Fullstack (MERN), Vercel

[Live Demo](#) | [GitHub](#)

- Developed and deployed an integrated fullstack web application with robust client-server workflows and responsive UI design.
- Configured automated CI/CD deployment pipelines via GitHub for continuous delivery on Vercel.

Vehicle Parking Management System

React.js, Vite, JavaScript, Vercel

[Live Demo](#) | [GitHub](#)

- Engineered a real-time SPA managing slot allocation, entry/exit tracking, and automated fee calculations for 100+ active vehicle records.
- Implemented structured state management using React Hooks to ensure modular architecture across modern browsers.

Restaurant Management System

React.js, CSS, Vercel

[Live Demo](#) | [GitHub](#)

- Developed a responsive web app enabling interactive menu browsing, real-time order tracking, and dynamic UI feedback in React.js.
- Designed a modular, reusable component architecture optimized for mobile and desktop screens with automated Vercel deployments.

EDUCATION

Diploma in Computer Science & Engineering (CSE)

Excel Hi-Tech Engineering College

2024 - 2027 (*Expected*)

- Awarded Top Performer by college faculty (selected out of 50+ peers) for leading a 15-member team to deliver an AI-integrated web platform.

Relevant Coursework: Web Development, Data Structures & Algorithms, OOP, DBMS, Software Engineering.

Secondary School Education (SSLC)

Govt High School, Kurumbapalayam | Madukkarai, Coimbatore, India

2021

- Completed SSLC in 2021 with an aggregate score of 60%, marking the start of my interest in computers and engineering.

CERTIFICATIONS

- AWS Training and Certification — Cloud Fundamentals, Amazon Q Developer, Amazon Q Business
- Microsoft Learn — Microsoft 365 Copilot & AI Productivity, NLP/Computer Vision/AI Speech, Agentic AI & Cybersecurity Fundamentals
- Google Cloud / Microsoft Learn — Generative AI & Responsible AI Principles
